

Exit Codes Report 11-07-2014 08:15

The Louisiana Department of Education analyzes enrollment data to determine if enrollment records meet the criteria of being a drop out. According to Bulletin 111, The Dropout Index calculations account for 5% of the School Performance score.

The purpose of this audit is to help minimize drop out counts by ensuring that all pieces of student master leave information is entered completely.

Please find below a listing of students that have leave code information missing from their student master records. This includes students transferring to another facility who are missing one or a combination of the following fields:
