Graduation Template Loader for 8th Graders

The Graduation Template Loader in this scenario has current 8th grade students on the left, and Graduation Templates of the high schools they will be attending on the right.

The user identifies which students go in a desired template at the next high school he/she will be attending, then requests in the Grad Template are assigned to these students.

1. In JCampus, go to **Scheduling / Loaders / Student Graduation Template Loader**.
2. At the setup, configure for year **1920**, grade **08**.
   - Place a check for "**Edit Next School Students**"
   - Place a check for "**Active Only**" with current date beneath.
   - Click "**Ok**" to get a listing of students.
3. On the left will be students with a column showing next year school. On the right is a pick list of Graduation Templates for each of the high schools.
   - **Tip**: Sort the Students (left side) and Grad Plans (right side) in "**School**" order to make browsing easier.
4. Click to select students in the boxes to the left of each student's name.
5. On the right, click the Graduation Plan to assign to these students. Make sure next school is same as site with graduation plan.
   - The system will ask for a confirmation. After clicking "**Yes**", the column "Grad ID" will update with the code associated with the Grad Template.
6. Need to change a Template assigned to a student? Click the select box and select the Grad Template to assign to the student.
7. **Important:** If you post this early in the spring, please come back and check it to make sure new students that have come in are getting assigned a template. Review it again at the end of the year.
